

## **VeruTEK Technologies Names Scott Saroff Vice President of Business Development and Field Services**

October 28, 2008 - BLOOMFIELD, CT VeruTEK Technologies Inc. (OTCBB: VTKT), an international environmental technologies company, announced today that Scott Saroff has joined the Company as Vice President of Business Development and Field Services. A contaminant Hydrogeologist with specialties in fate/transport of contamination in groundwater, innovative remedial technologies, and hazardous waste site closure, Mr. Saroff brings to VeruTEK more than 26 years of geological and environmental (utility, industrial, and government) and environmental remediation experience.

Mr. Saroff comes to VeruTEK from CH2M Hill, a global leader in full-service engineering, consulting, construction, and operations, where he served as the Northeast Region Site Management Practice Lead and Principal Technologist/Technical Director and Global Subject Matter Expert for petroleum and manufactured gas plant site remediation.

During his professional career Mr. Saroff has served as a remediation manager for petroleum spill cleanups; an environmental enforcement scientist for the NY State Attorney General's Office; a Geology Group Manager for USEPA's REAC Superfund Program; a Principal Hydrogeologist/Division Manager for a national environmental engineering company; and a Regional Remediation and National MGP Program Manager for a national environmental engineering company.

Mr. Saroff's duties at VeruTEK will include the sales and marketing of VeruTEK's products and services in the environmental market worldwide; the implementation of VeruTEK's remediation technologies in the field; and contributing to the design of new remedial technologies and chemical delivery systems.

John Collins, Ph.D., CEO of VeruTEK stated, "We are very pleased to have someone of Scott's vast environmental experience and tremendous contacts join VeruTEK. He will help VeruTEK to continue to make progress toward our goal of becoming the leader of green, sustainable and effective remedies to environmental problems."

the environment. For more information, please visit [www.verutek.com](http://www.verutek.com).

*Safe Harbor Statement*

*This release may be deemed to contain forward-looking statements that are based on our current expectations, beliefs, assumptions, estimates, forecasts, and projections about the industry and markets in which VeruTEK operates. The statements contained in this release are not guarantees of future performance, are inherently uncertain, involve certain risks, uncertainties, and assumptions that are difficult to predict, and do not give effect to the potential impact of any mergers, acquisitions, divestitures, or business combinations that may be announced or closed after the date hereof. Therefore, actual outcomes and results may differ materially from what is expressed in such forward-looking statements, and such statements should not be relied upon as representing VeruTEK's expectations or beliefs as of any future date. We do not undertake any obligation to update forward-looking statements made by us. Important factors that may affect future operating results include: VeruTEK's substantial indebtedness, VeruTEK's limited operating history, VeruTEK's historically variable operating results, dependence on a limited number of customers, VeruTEK's dependence on a single supplier, volatile capital spending in the environmental remediation industry, and other risk factors described in our most recent filings with the Securities and Exchange Commission. Our results of operations for the periods presented in this release are not necessarily indicative of our operating results for any future periods.*
